Commissions

The creation of a commission work of art is unique. It combines the talents and insights of the artist with the visions and goals of the customer. There will never be another work created just the same from these combinations of talents. This uniqueness will make the work more valuable over time, not only for the original commissioner, but for all collectors of fine art.

Commissioning a work is easy. Simply call the number below to speak with the artist about your desires. If you prefer, you may write and include photographs and ideas. The artist will call and discuss those ideas with you. For your convenience, you may also FAX your requests to the FAX number listed below.

Delivery times will depend upon the type of work, the size and amount of detail in each piece. There is sometimes a waiting list, but we will make every attempt to meet a “special” deadline for gift giving.
